Preamble:

It’s a great feeling almost after one year of the inception of our consortium, which cannot be expressed in words and figures today. Our 400+ CSO Partners, spread across 25 states and 1 union territory of India had achieved so much during last one year that we thought of putting it in a volume like this with minimum texts and figures to give all stakeholders a good account of our consistent efforts and to us the maximum visibility for all of our continuous endeavours to achieve the 169 set-targets of 17 Sustainable Development Goals (SDGs) by 2030.

We have only arranged our sincere efforts as per the 17 Sustainable Development Goals (SDGs), for which we are all working to accomplish it as early as possible. At this juncture, India needs the Civil Society Movement to take the correct step in the right direction. What we are all doing together is a small contribution towards a bigger mandate with a larger agenda in years to come.

- Dr Surendra Kumar Mishra, National Coordinator, VIKASH-SAMUKHYA
Committed to Working together until the 17 Goals are reached for India
